BAROLO

ROCCHIE DI CASTELLETTO

Variety of vine: Nebbiolo 100%

Vineyard position: Castelletto, in the township of Monforte d'Alba, Piedmont, Italy. Southwest and west exposure, in a zone particularly well-suited for growing Nebbiolo grapes for Barolo.

Soil: clayey-limestone

Date of harvest: second half of October

Wine-making: in this vineyard, because the yield per vine must not exceed 2 kg, two thinnings are done - one at the beginning and one at the end of August. During harvest, which is done manually by specialized vineyard workers, particular attention is given to the grape sorting. Each plant is harvested twice with a period of 6 - 10 days in between. Fermentation lasts 15 days and happens in small, stainless steel tanks with repeated pumping-over for adequate color extraction. Maceration continues after fermentation for a total of 40 - 45 days. After, the wine rests in Slavonia oak barrels of 2,000-2,500-5,000 liters before being transferred, once again, to stainless steel tanks. After about 4 years from the harvest, the wine is ready to be put on the market.

Tasting notes: on the nose, this wine is elegant, with complex notes of raspberry, liquorice, and spices. It is full-bodied, powerful, and balanced by the sweetness of the tannins that characterize its lasting impression on the palate.

Dishes: this is a great wine to pair with important, flavorful meals, like meat roasts and cheeses (best if aged).

Recommended serving temperature: 18° C.
